

## FIGHT

### FOR THE LIFE OF A WOMAN BEGINS.

MABEL FENTON HAINES IS NOW  
ON TRIAL.

JURY WAS QUICKLY SECURED.

Very Pathetic Scene Arranged for Ef-  
fect—The Young Mother With  
Her Babies in Court.

Mount Holly, N. J., March 26.—  
Drawn by a desire to watch the woman  
accused of one of the most heinous  
murders ever perpetrated, a huge  
crowd, in which women predominated,  
in the ratio of at least 3 to 1, this  
morning besieged the quaint, old  
Mount Holly court house where Mabel  
Fenton Haines is on trial for the murder  
of innocent little Gwendoline  
Haines, her baby stepdaughter.

Chemis (Barringer) was first on the  
stand today, having been recalled for  
cross-examination. The latter strengthened:  
if anything, his direct evidence,  
witness stating that the arsenic taken  
from the dead child's viscera appeared  
to have been administered with milk.  
He swore positively that in his opinion  
it could not have entered the  
labe's stomach after death. This point  
was insisted upon by the common-  
wealth in expectation of the defense  
contending that the person formed part  
of the undertaker's embalming fluid.  
Dr. R. H. Parsons of Mount Holly,  
proved another strong witness against  
Mrs. Haines. He had assisted at the  
autopsy, and described on the stand  
the baby's injuries. These consisted  
of a broken or mashed nose, a cut lip,  
a black and blue eye and a serious  
tearing of the lobe of the left ear.  
When the brain was exposed to view  
witness stated, there were large clots  
of blood, occasioned by the wounds.  
After testifying that he was a graduate  
of the University of Pennsylvania and  
had practiced in Mount Holly for 22  
years, Dr. Parsons was asked whether  
in his judgment the baby's death  
would have occurred even though  
poison had not been administered. He  
replied: "Yes," with emphasis, and  
swore that the cause of death was  
meningitis encouraged by the inju-  
ries referred to. Mrs. Haines heard  
him with noteworthy calmness.

Mt. Holly, N. J., March 26.—The trial  
of Mabel Fenton Haines, destined to  
take rank as one of the most famous  
murder cases ever brought before the  
New Jersey courts, is now on.

The woman is charged with the killing  
of her stepdaughter, murder  
prompted by undying hatred for the  
little victim's dead mother, the first  
wife of Howard Haines. Against the  
woman's bosom nestles a baby which  
was born four months ago behind the  
barred windows of the prison hospital.  
Another child, the pallid prisoner's  
2-year-old son, was at her side. It  
was desperately hard to associate the  
inhuman crime of child-murder with  
the frail, sad-faced woman whose  
eyes followed every movement of her  
tiny son with true motherly solicitude.

Justice Garrison started the proceed-  
ings at a gallop. The work of secur-  
ing a jury was accomplished in one  
hour and a half. Prosecutor Atkin-  
son, represented the people. Eckard  
P. Budd conducted the defense.

Throughout the work of selecting  
the jury Mrs. Haines conferred ener-  
getically with her counsel.

Rapidly did the Prosecutor review  
the evidence. He told of the investi-  
gation made by Coroner Wells, of the  
exhuming of the body, of the chemical  
analysis of the stomach and organs,  
and of the discovery of arsenic enough  
of the poison to deal death to a score  
of men.

One witness will swear to having  
remonstrated with the malicious woman,  
who cried: "I'll beat it as I see  
fit, and I would like to bury it alive."

The prosecutor reviewed the facts  
promising proof that no arsenic was  
in the embalming fluid used by the un-  
dertaker.

The first witness was Henry S.  
Haines, a civil engineer. He had made  
a large map of the house in which  
Gwendoline met her tragic death.

Dr. Weller was the next witness,  
and his testimony marked the real be-  
ginning of the battle. He told of his

attendance on the Haines family as a  
physician, emphasizing the point that  
while regularly treating the mother,  
he had only been summoned three  
times for little Gwendoline. He de-  
scribed the night of the child's death,  
March 31, of the discovery of the mys-  
terious wound on the body, and of his  
refusal to give a death certificate.  
With his cross-examination came trou-  
ble for the witness.  
"Is it not true," shouted Lawyer  
Budd, "that on the night of Gwen-  
doline's death you put your arms  
around Mrs. Haines and kissed her?"  
"No," gasped the doctor turning  
from scarlet to white.  
"Is it not true," thundered the pris-  
oner's counsel, "that you said to her,  
'Don't worry, you have done all that  
anyone could do. I always thought  
she would end this way.'"  
"No," fairly screamed the witness.  
Prompted by Dr. Cohen, the defend-  
ant's lawyer made life miserable for  
Dr. Weller for a full hour on chemical  
technicalities.

## DEATH

### COMES TO "DIAMOND KING" CECIL RHOADS

A BULLETIN FROM CAPE TOWN  
ANNOUNCES THE END.

WAS SO HATED BY THE BOERS

That When South African War Broke  
Out A Price War Put on His  
Head.

London, March 26.—(Bulletin.)—A  
Cape Town dispatch this afternoon an-  
nounces that Cecil Rhoads is dead.

Cecil Rhoads was born in 1851. He  
was immensely wealthy and known as  
the Diamond King. He was at one  
time premier of the Cape Government.  
He was so hated by the Boers that  
when the South African war broke out  
a price of \$50,000 was placed on his  
head. He was in Kimberly when Gen.  
French broke the Boer siege and got  
him away to England.

AT METHODIST PARSONAGE.  
Mr. Edward Franklin Rees, of Colum-  
bus and Miss Caroline Gillard, the  
daughter of Mr. John Gillard, of this  
city who has been keeping books for  
a firm in Columbus for some time,  
came over to Newark and last after-  
noon were married by Rev. A. E. John-  
son.

### Interests Union Men.

Columbus, March 26.—The House to-  
day passed a bill of importance to la-  
bor. It was a bill introduced by Mr.  
Cannon of Franklin and provides that  
any employer of labor who advertises  
for help during a strike or lockout  
shall state in his advertisement that  
there is a strike or lockout, or the pen-  
alty of a fine of \$100, half to go to the  
one who makes complaint. The vote  
was 60 to 28.

### Three Were Killed.

Punxsutawney, Pa., March 25.—As  
a result of a terrific explosion yester-  
day afternoon at the Mahoning Pow-  
er Company's plant two miles above  
town, three men were killed. The dead  
are Obediah Bergerstock, Clarence  
Simpson, Joseph Wise.

### CLAIMS TO HAVE

#### AIDED CZOLGOSZ

\* Milwaukee, March 26.—A Bara-  
boo, Wis., special to the Sentinel  
says that Sheriff Slackhans last  
night obtained a confession made  
by J. Steinman, a convicted burg-  
lar, to the effect that he was an  
accomplice of Czolgosz who mur-  
dered President McKinley and that  
he had bound the handkerchief  
about the murderer's hand in pre-  
paring for the crime. He further  
said he was near Czolgosz when  
the shots were fired and was ready  
to shoot had Czolgosz missed the  
President. The man came from  
New Jersey six months ago. He  
was taken to Waupun for burglary.

Washington, March 26.—Gen. Wood  
will leave tonight for Havana. The re-  
moval of troops from the island will  
begin at once, said General Wood to-  
day.

## CUBA'S

### TRANSFER TAKES PLACE ON MAY 20.

FORMAL ORDERS ISSUED TO GEN-  
ERAL WOOD.

WHOLE SCHEME IS COMPLETED.

United States Will Withdraw All the  
Troops but Artillerymen for  
Coast Defense.

Washington, March 26.—Secretary  
Root has made public his order to  
General Wood, directing him to turn  
over the control and government of  
Cuba to its people on May 20 next.  
Yesterday it was thought June 1  
would be the date of the transfer. The  
order requires the Cuban government  
to assume all treaty obligations and  
directs General Wood to continue a  
small artillery force to avoid leaving  
the island entirely defenseless until  
the Cuban Government shall have op-  
portunity to organize its own force.

General Wood is also directed to  
convene the Cuban Congress before  
May 20. He is also directed to consult  
with President-elect Palma and  
substitute such persons as he shall de-  
sire for those now holding official po-  
sitions in Cuba. The text of the order  
is as follows.

You are authorized to provide for  
the inauguration on the 20th of May  
next, of the government elected by  
the people of Cuba, and upon the es-  
tablishment of said government to  
leave the government and control of  
the island of Cuba to its people, pursu-  
ant to the provisions of the act of  
Congress.

Upon the transfer of government  
and control to the President and Con-  
gress so elected, you will advise them  
that such transfer is upon the express  
understanding and condition that the  
new government does thereupon and  
by the acceptance thereof, pursuant to  
the provisions of the appendix to the  
constitution of Cuba, adopted by the  
Constitutional Convention on the 12th  
of June, 1901, assume and undertake  
all and several the obligations assum-  
ed by the United States with respect  
to Cuba by the treaty between the  
United States of America and Her Ma-  
jesty, the Queen Regent of Spain,  
signed at Paris on the 10th day of De-  
cember, 1898.

It is the purpose of the United States  
Government forthwith upon the inaugu-  
ration of the new government of Cuba  
to terminate the occupancy of the  
island by the United States, and to  
withdraw from that island the military  
forces now in occupancy thereof; but  
for the preservation and care of the  
coast defenses of the island and to  
avoid leaving the island entirely de-  
fenseless against external attack you  
may leave in the coast fortifications  
such small numbers of artillerymen as  
may be necessary for such reasonable  
time as may be required to enable the  
new government to organize and substi-  
tute therefor an adequate military  
force of its own, by which time it is  
anticipated that the naval stations re-  
ferred to in the statute and in the  
appendix to the constitution above cit-  
ed, will have been agreed upon and  
the artillerymen may be transferred  
thereto.

You will convene the Congress elect-  
ed by the people of Cuba in joint ses-  
sion at such reasonable time before  
the 20th of May as shall be necessary  
for the people performing the duties  
of counting and rectifying the Elec-  
toral vote for President and Vice  
President, in accordance with the fifty-  
eighth article of the Cuban Constitu-  
tion. At the same time you will pub-  
lish and certify to the people of Cuba  
the instrument adopted as the con-  
stitution of Cuba by the Constitutional  
Convention on the 21st day of Febru-  
ary, 1901, together with the appendix  
added thereto and forming a part  
thereof, adopted by the said conven-  
tion on the 21st day of June, 1901. It  
is the understanding that the govern-  
ment of the United States will pass to  
the new President and Congress of  
Cuba as a going concern, all the laws  
promulgated by the Government of  
occupation continuing in force and ef-  
fect and all the judicial and subordi-  
nate executive and administrative offi-  
cers continuing in the lawful dis-  
charge of their present functions un-  
til changed by the constitutional offi-

cers of the new government. At the  
same moment the responsibility of the  
United States for the collection and  
expenditures of revenues and for the  
proper performance of duty by the  
officers and employees of the insular  
Government will end, and the respon-  
sibility of the new government of Cuba  
will commence.

In order to avoid any embarrass-  
ment to the new President which  
might arise from his assuming exclu-  
sive responsibility with subordinates  
whom he does not know, or in whom  
he has not the confidence and to avoid  
any occasion for sweeping changes in  
the civil service personnel immedi-  
ately after inauguration of the new Gov-  
ernment, approval is given to the  
course which you have already pro-  
posed of consulting the President-  
elect and substituting before the 20th  
day of May, wherever he shall so di-  
rect, for the persons now holding of-  
ficial positions such persons as he may  
designate.

This method will make it necessary  
that the new President and yourself  
should appoint representatives to  
count and certify the cash and cash  
balances, and the securities for depos-  
its, transferred to the new Govern-  
ment. The consent of the owner of  
the securities for deposits to the trans-  
fer thereof you will of course obtain.  
The vouchers and accounts in offices  
of the Auditor and elsewhere relating  
to the receipt and disbursement of  
moneys during the government of oc-  
cupation must necessarily remain  
within the country and available for  
the use of this department. Access to  
these papers will, however, undoubt-  
edly be important to the officers of the  
new government in the conduct of  
their business subsequent to the 20th  
of May. You will accordingly appoint  
an agent to take possession of these  
papers and retain them at such place  
in the island of Cuba as may be  
agreed upon with the new Government  
until they can be removed to the United  
States without detriment to the  
current business of the year.

I desire that you communicate the  
contents of this letter to Mr. Palma,  
the President elect, and ascertain  
whether the course above described  
accords with his views and wishes.

Very respectfully,

ELIHU ROOT,

Secretary of War.

All of the troops except 800 men of  
the coast artillery, are to be brought  
to the United States as rapidly as  
transportation facilities will permit be-  
tween now and May 20. The retention  
of these artillerymen is for the three  
batteries of coast artillery.

Secretary Root has requested Sec-  
retary Hay to arrange for diplomatic  
representation of the United States in  
Cuba. Provision for consular service  
will also be made.

### HONORED GUEST

#### HAS SMALLPOX

Ogdensburg, N. Y., March 26.—  
Frank Doran of Deadwood, S. D., was  
taken sick at a party given in honor  
of his return to Waddington last  
night. Later it was found that he had  
a well-developed case of smallpox.  
Many persons were exposed to the  
disease. The village doctor procured  
a fumigation outfit, and today while  
operating it the lamp exploded, severely  
burning the operator. He may lose  
his sight.

## DELAKEY

Escaped Though Part of His Forces  
Were Captured—An Armistice  
Is Not in Force.

London, March 26.—It is presumed  
here that the Transvaal executive  
council, headed by acting President  
Schalkenburger, is now conferring  
with General Duxet and President  
Stern at or near Hepstaud in the  
northwest portion of Orange River  
state. Several days must elapse be-  
fore the result is known. Lord Kitch-  
ener's dispatches today, reporting op-  
erations against General Delarey, dis-  
pose of the suggestion that an armistice  
is in force. Delarey's force was  
captured in 1901 but the wily Boer  
leader escaped again.

January and October in the same  
year always be us with the same day  
of the week. The case is the same  
with April and July, with September  
and December, and with February,  
March and November.

## PORTER

### LYNCHED BY FRENZIED MOB IN COLORADO

NEGRO HANGED IN A COURT-  
HOUSE ENCLOSURE.

HE WAS TAKEN FROM SHERIFF

Accused of Assault on a Woman Who  
Had Asked for Information—Pos-  
itively Identified.

La Junta, Colo., March 26.—W. H.  
Wallace, a negro sleeping car porter,  
was lynched last night in the court  
house square, being hanged to an elec-  
tric light pole by a howling mob of  
4,000 persons, who had been hunting  
for him all day. After the hanging the  
body of the negro was riddled with  
bullets. Wallace had been kept out of  
town all day by Sheriff Farr in an at-  
tempt to save him from the mob. The  
prisoner made no resistance to the  
lynching and died protesting his inno-  
cence.

Mrs. Henrietta Miller, a gray hair-  
ed woman, aged 67, going from Los  
Angeles to Denver was brutally as-  
saulted in the Santa Fe railroad yards  
here Monday by a negro porter. After  
leaving the Chicago limited train Mrs.  
Miller asked a porter whom she met  
on the station platform where the  
Denver sleeper was. The man offered  
to conduct her to the car.

After going with him a considerable  
distance Mrs. Miller became suspicious  
and started to return to the station.  
She was then knocked down by a blow  
on the head and after a struggle  
with her assailant was choked into in-  
sensitivity. When she regained con-  
sciousness about an hour later she  
crawled back to the station and gave  
an account of the assault and a de-  
scription of her assailant.

Washington H. Wallace, a Pullman  
car porter was arrested in the car of  
which he had charge. He was identi-  
fied by Mrs. Miller. Blood hounds  
were brought from Canyon City and  
they traced the man who accompanied  
Mrs. Miller through the yards to the  
car in which Wallace was found.

Eight assaults have occurred here in  
the past few months and it is believed  
all were committed by one man. Mrs.  
Miller's condition is critical.

Fearing a lynching Sheriff Farr de-  
cided to take the prisoner to Pueblo.  
When his intentions became known  
however, the railroad employees de-  
clared that he could not travel by rail  
as they would refuse to operate the  
train out of La Junta with Wallace on  
board. The sheriff placed his prisoner  
in a carriage and started for Sugar  
City, 20 miles north. At that place he  
was too late to catch the train for  
Pueblo and decided to drive through.

Meanwhile an armed party had left  
La Junta to overtake the sheriff and  
prisoner. The carriage was finally  
overtaken at Patterson. Sheriff Farr  
made no resistance and Wallace did  
not ask for mercy. The carriage was  
turned back toward La Junta. Passing  
through Rocky Ford the mob was  
joined by 500 men of that town. La  
Junta was reached about 7 o'clock  
where thousands of men, women and  
children many from the surrounding  
country awaited them.

A peace element endeavored to stop  
the proposed lynching. After about a  
half hour or so the word went out that  
the court house doors were locked and  
that the peace committee would try to  
prevent a lynching.

Immediately pandemonium reigned.  
Stones were hurled at the building un-  
til every window was broken. Then  
with a telegraph pole for a battering  
ram, the crowd broke in the doors  
and the negro taken. Mayor Salin  
made a speech to the crowd counsel-  
ing them to let the law take its  
course. He was listened to but as  
soon as he had finished the crowd  
moved down the street dragging the  
negro by a rope.

A boy was sent up a telegraph pole  
with a rope. It was thrown over the  
cross bar and then dropped into the  
crowd. A hundred hands grasped it  
and in an instant the negro was in  
the air. Hardly had the boy climbed  
out of danger when hundreds of peo-  
ple were drawn and before the negro  
was fully reached the top of the pole it  
was riddled with bullets and the man was  
dead.

Sheriff Farr said that Wallace stead-

fastly maintained his innocence but  
the police declare that when they ar-  
rested him in his car there was blood  
and gray hairs on his clothing and  
other evidence which satisfied them  
that he was the guilty man.  
Wallace lived with his wife in Den-  
ver. They had no children.

### REMOVED THE BOARD.

San Francisco, March 26.—Mayor  
Schmitz has removed four members  
of the Board of Health, Drs. Williamson,  
Baum, Buckley and Lewitt, because of  
their action a year ago in spreading a  
report that bubonic plague existed  
here.

### Naval Review.

Portsmouth, March 26.—The corona-  
tion review has been officially fixed  
for June 28. About 135 British and 20  
foreign warships, including Americans,  
Germans, Italians, Portugese, Dutch,  
Swedish, French, Russian and possibly  
Spanish, will participate.

### OF THE CELEBRATED TRIAL OF PATRICK

ON CHARGE OF KILLING RICE THE  
MILLIONAIRE,

IS NOW NOT VERY FAR DISTANT

Case in Hands of Jury—Trial Cost the  
County \$50,000 and Defense  
Over \$25,000.

New York, March 26.—The jury in  
the Patrick case will probably retire  
for deliberations this afternoon and  
the accused lawyer may know his fate  
before night.

At 10-45 o'clock this morning Re-  
corder Goff began his charge to the  
jury and it is expected that he will  
throw dirt from county or township  
take about three hours. Before the re-  
corder began the defense handed in 26  
requests for particular points to be  
made in the charge. These requests  
covered 42 typewritten pages.

The opinion prevailing about the  
court house this morning was that the  
jury would either acquit Patrick or  
disagree.

The Patrick trial has been on since  
January 20 and during that time 102  
witnesses have been called, 76 by the  
prosecution and 16 by the defense.

There have been 238 exhibits and  
1,300,000 words of testimony have been  
taken. Thus far the case has cost  
the county \$50,000 and the defense ex-  
clusive of counsel fees, \$25,000.

Robert C. Clowry, the new President  
of the Western Union Telegraph com-  
pany, entered the Joliet (Ill.) office of  
the company as a messenger boy at  
the age of 13.

## HANNA BOOM

### LOOKS SERIOUS

Washington Politicians Believe That  
the Senator is a Candidate for  
Presidency.

Washington, March 26.—Every time  
the Republican presidential nomina-  
tion in 1904 is mentioned to Senator  
Mark Hanna he grins. He says he is  
not a candidate. His friends say he is  
not a candidate.

President Roosevelt thinks Hanna is  
a candidate. So does the President's  
friends.

A New England senator said yester-  
day: "If Hanna does not jump into  
the air pretty soon, swear and com-  
mit on this movement it will get  
away from him and from everybody  
else."

"Will he do it?" the senator was asked.  
"Well," the senator replied, with just  
a suspicion of a smile, "he may jump  
in the air and he may swear, but I  
don't know whether he will come  
down on it or not."

Here in Washington where most of  
the politicians are and where all of  
the politicians come, the Hanna boom is  
beginning to have a serious aspect. It  
is well known that if McKinley had  
lived Hanna would have been a can-  
didate. After McKinley died there was  
a hub. Then it was decided that he  
should be a candidate, anyhow, and it  
was thought unwise to do anything to  
prevent the congressional elections.

## GARFIELD

### ELECTION LAW REPEALED BY LEGISLATURE

THE MIDDLESWART BARBER BILL  
IS KILLED.

SENATE AND HOUSE BILLS PASS.

Senate Bill to Authorize Admission of  
Voluntary Patients to State Hos-  
pitals for Insane.

Columbus, O., March 26.—The Sen-  
ate yesterday afternoon passed the  
house bill repealing the Garfield cor-  
rupt practices act and it is now repeal-  
ed. Senators Warner and Harrison  
alone voted against its repeal.

Senate bills passed: To provide for  
the abandonment of the normal school  
at Wadsworth, Medina county; to pre-  
vent the secretary of state from filing  
articles of incorporation in which the  
name of the corporation is such as to  
mislead the public as to the character  
of the business authorized by the charter,  
to abandon the remnant of the  
Wabash and Erie canal in Paulding  
county, the canal commission to sell  
the state property abandoned; to give  
special policemen the same protection  
against assault as that provided for  
regular patrolmen; to authorize  
boards of education in cities of grade  
and class of Bellefontaine to levy a tax  
not exceeding 6-10 of a mill for library  
maintenance and to assume control of  
such libraries; to authorize admission  
of voluntary patients to state hospitals  
for the insane.

House bills passed: Providing that  
conductors and motormen on street  
railroads shall not be required to work  
more than ten hours in any 24 under  
penalty of \$50 fine for each offense;  
providing that commissioners may  
throw dirt from county or township  
ditches either on highway or adjoin-  
ing premises; to prevent the desecra-  
tion of the United States flag and pro-  
hibiting the use of the flag for adver-  
tising purposes, exempting society  
badges or emblems, a penalty for vio-  
lators of the act is provided consisting  
of a fine not to exceed \$100, or impris-  
onment not more than 30 days, or  
both; providing that county commis-  
sioners may enter into agreement with  
township trustees instead of assess-  
ing cost on abutting property owners;  
appropriating \$15,000 to prevent the  
introduction and spread of the San  
Jose scale and other dangerous insects  
and dangerously contagious diseases  
affecting shrubs, plants and fruits.

The house killed the Middleswart bill  
which provides for a board of exam-  
iners for barbers and to regulate the  
occupation of a barber in this state  
and to prevent the spreading of con-  
tagious diseases. Colored barbers of  
the state were unanimous in their op-  
position of the bill.

### Russel Sage Loses.

New York, March 26.—The German-  
American Real Estate Title Guar-  
antee company went into the hands of a  
receiver yesterday. More than \$700,-  
000 has disappeared from its apparent  
assets since its last annual statement  
in January. Russel Sage, who was  
until about ten days a stockholder,  
loses \$250,000 or more, besides the value  
of his stock.

## IN TRUST

For His Children Brother of B. G.  
Dawes Deeds Away Valuable  
Property at Lincoln.

Lincoln, Neb., March 26.—Charles G.  
Dawes formerly Controller of the  
Currency, has deeded five business  
houses in this city, valued at \$150,000  
to Wm W. Mills of Marietta, Ohio. Mr.

**WHO**  
**Is Trying to "Pull the Wool Over Peoples' Eyes and Gull Them?"**

The double column article in the Water Works Organ of last Friday, assailing the City Council for its action in passing the ordinance for submitting the water works proposition, made this charge:

"By this move the City Council thought it could pull the wool over the eyes of the people and gull them into voting at this early day and before the question had been fairly opened up for discussion, to bond the city in the sum of \$300,000 for something that they do not know if they want."

When the W. W. O. uttered the above, it had not yet avowed its position in favor of continuing to contract with the old water works company. It had been fighting the proposition on which the people are to vote with all kinds of subterfuges and cunning devices. It had been all along disguising its real reason for opposing city ownership. Now, since it is clearly developed that the W. W. O. is simply fighting the battle for the water works company, here is the significant question that stands out before the public:

Who is trying to "pull the wool over the eyes of the people and gull them" on the water works proposition?

NOT the City Council, every one of whom, Democrats and Republicans alike, voted for the water works ordinance and acted UNANIMOUSLY at every stage of the proceedings in favor of city ownership. The Council has acted openly and squarely in every instance and no charge of deception can be justly made against a sin for me.

The effort to "pull the wool over the eyes of the people and gull them" has been wholly and solely made by the American-Tribune, and it is doing it in the interest of the water works company.

**Chief Recommendation Made by the Non-Partisan Water Works Committee.**

First. This committee heartily and unanimously recommends that the City of Newark maintain and control its own system of water works, and is unalterably opposed to making any further contract for the supply of water with any firm, corporation or company whatever.

**The American-Tribune's Opposition to this Recommendation.**

In opposition to this recommendation of the non-partisan committee the American-Tribune as the Water Works Organ has this to say as an argument in favor of making another contract with the present water works company:

"In the third place we have been interrogated as to our position on the renewal of the old contract with the water works company. In this matter we can say that the council has within its province, to make such rates for the water works as it desires and if it is deemed best that a new contract be made with the water works company the city council can make any rate it desires" *A. S. Cunningham*

**OWNS ITS PLANT**

And Has It Paid for Though Rents Are Less Than in Newark—Vote "Yes" on Water Works.

The American Tribune would have been in better shape before the people on the water works question had it ignored and not attempted to answer the three questions put by the Advocate last week. To the question, Are you in favor of the city owning its own water plant? its answer is in effect, "We do not know," or "We will not say."

To the questions, Are you in favor of the city buying the old plant? it gives the same answer.

To the question, Are you in favor of renewing for a term of years the old contract with the old company? its answer is, "The City Council can make any contract it desires with the old company."

Did the A-T. endorse the report of the non-partisan committee as it has pretended to do, its answer would have been an unequivocal "yes" to the first two questions put.

Its answer to question three shows plainly that its campaign on this question is not in favor of the people, nor the Republican party, but in the interests of the old company. It is in favor of what the old company wants.

The publisher of the water works organ came from a town which owns its own water works and paid for the plant in a few years out of the profits at rates less than one-half being now paid by the citizens of Newark. There is every reason why the city of Newark should get the profits out of such a public service. It can pay for the plant out of the revenues, furnish rates very much cheaper and when the plant is paid for, the profits will go to reduce the general taxes.

The people should decide this question now for themselves and not postpone to a future time because the old company, through its mouthpiece, wants the proposition killed.

Let the people vote for their own interests. Vote "yes" on the water works proposition. The members of the non-partisan committee will vote that way.

**Teacher Reinstated.**

Brazil, Ind., March 26.—The school board today re-instated Rev. E. M. Muncie, principal of the Meridian street school, who was discharged on Monday on a charge of hugging and kissing one of his young lady pupils. The re-instatement was brought about by a petition signed by the parents of every pupil who attended the school.

**HUNTING THE GORILLA.**

An Animal West Africans Say Has the Soul of a Man.

Gorilla hunting is a distinct sensation even for the veteran hunter. This animal, which has become confused somewhat with fable and fiction, is a reality and a decidedly unpleasant one to engage. The west Africans are mortally afraid of it, believing that the brute contains the spirit of a man. They attribute to it all sorts of ferocities, like the carrying off of a human being, who is permitted to return after being deprived of toe and finger nails.

"Skilled hunters have never observed any of these doings, but they testify to the brute's strength and ferocity," says Allen Sangree in Ainslie's. "According to a French sportsman, a full grown gorilla can bite through a tree six inches thick in order to secure the sap and twist a gun barrel with the swollen bulges of muscle that serve for arms. His roar is terrifying and can be heard for a distance of three miles."

"I shall never forget how the first one impressed me," says the Frenchman, "for I had a bad attack of shingles. The woods had been filled some time with a lurking roar, but I saw nothing until my guide clucked softly and pointed to a tree alongside which stood an immense male gorilla. There he remained but twelve yards away, boldly facing us with his huge chest, muscular arms, fiercely glaring deep gray eyes and a hellish expression, until I moved."

"At that he dropped to all fours and came six yards nearer, sitting up to beat his breasts with his huge fists—a defiance—so that it sounded like an immense drum. His roar was most singular, beginning with a kind of bark and deepening into a hoarse roar that literally resembled thunder. The short hair on his forehead was twitching, his powerful fangs showed unpleasantly, and, feeling he was about to attack and incidentally being scared green, I shot him through the heart. With a groan something human and yet brutish, he fell on his face and died quickly, like a man. He measured 5 feet 9 inches in length, his chest was 62 inches, and his arms spread 9 feet. I was glad to have the specimen, but somehow after that never cared to kill a gorilla unless he actually menaced me."

**NOTHING WAS LOST.**

An Omission in a Wedding Ceremony That Didn't Count.

A distinguished officer of the United States navy once told this story on himself:

At the time of his marriage he had been through the civil war and had had many harrowing experiences aboard ship, through all of which he kept cool and remained as calm as a brave man should. As the time for the ceremony came on, however, his calmness gradually gave way. At the altar, amid the blaze of brass buttons and gold lace marking the full naval wedding, the officer was all but stampeded and what went on there seemed very much mixed to him. Fearing the excitement of the moment would temporarily take him off his feet, the officer had learned the marriage ceremony letter perfect, as he thought, and he remembered repeating the words after the minister in a mechanical sort of way.

After the ceremony was over and all was serene again, including the officer's state of mind, the kindly clergyman came up to him and touched him on the shoulder.

"Look here, old man," he said, "you didn't endow your wife with any worldly goods."

"What's that?" asked the bridegroom, with something of astonishment in his voice.

"Why, I repeated the sentence 'With all my worldly goods I thee endow' several times and despite my efforts you would not say it after me."

The bridegroom seemed perturbed for a moment, and then a beaming light came into his face.

"Never mind, sir," he said. "She didn't lose a blessed thing by my failure."—Washington Star.

## RAILWAY AFFAIRS.

### PRESIDENT LOREE LEAVES FOR MEXICO.

Third Rail System on B. & O. Belt Line—Local and General Notes. Railway Personal.

#### Wreck on B. & O.

A bad accident occurred on the L. E. division of the B. & O. railroad at Forest about 10:30 o'clock Tuesday night. Freight train No. 34 south bound, struck a broken rail and ten loaded cars were thrown from the track. The wreck train from this city was sent to the scene of the accident and found the track completely blocked. Train No. 46, due here at 6:20 a. m. was detained from Chicago by the accident. The train arrived here one hour and 30 minutes late. No one was injured.

Pittsburg, March 26.—President Loree of the Baltimore and Ohio and President Samuel R. Callaway of the American Locomotive company left this city yesterday for Mexico. The trip to Mexico is one of combined business and pleasure and will include on Mr. Callaway's part, a study of Mexican railways in general, and a look into the subject of petroleum fuel for locomotives.

#### Third Rail System.

New York, March 26.—A Baltimore special to the Times says: The Baltimore and Ohio Railroad company today put into active service the third-rail system installed on the belt line between Camden station and Plover through its tunnels under this city. Engineers regard the system as a complete success, and the entire overhead electric conduit and supports will be torn down.

#### Orders 500 Cars.

The management of the Pennsylvania company has given instructions to the master car builders at the Fort Wayne shops to build 500 cars of the X-1 type, the cars to have a steel underframe, making them more rigid and better able to withstand the strain. The cars will be of 80,000 pounds capacity.

#### Directors Elected.

Zanesville, O., March 26.—The annual meeting of the stockholders of the Cincinnati and Muskingum Valley railway was held here yesterday afternoon and was elected for the ensuing year. James McKee, Joseph Wood, J. J. Turner, L. L. Gilbert, James Buckingham, John Hoge and Frank A. Durban, the last three residing here. Mr. Durban is a new man in the directory.

#### B. & O. Patrolman.

B. & O. Patrolman Thomas Beel received a bulletin this morning stating that S. K. Hayes, who was recently promoted from patrolman in this city to the position of lieutenant of police of the Newark division with headquarters at Newark, has been promoted again to captain of police for the Newark division. This division includes all points from Chicago Junction to Midland City and from Newark to Marietta.—Massfield Shield.

#### Railway Notes.

The Pennsylvania has set aside \$100,000 to be expended in improve-

ments on the Logansport division, the money to be used in double-tracking sixteen miles additional, making forty-nine miles of double track, and the erection of several interlocking plants. The Pennsylvania lines west of Pittsburg are testing with marked success the lighting of passenger trains with electricity, and all through trains will soon be lighted by electricity generated by a battery under each coach.

#### Local Railway Notes.

## WATER WORKS

"Reader" Glad That the Advocate is Taking the People's Side of the Controversy.

(Communicated.)

I read both of the Newark daily papers and am pleased to note the attitude the Advocate is taking on the Water Works question and at the same time I am pained to see the course pursued by the American-Tribune.

The question is wholly out of politics as the entire City Council has voted unanimously to present the question to the voters at the spring election. The real issue is—Shall Newark city own its own water works plant, shall the mains be extended to serve all the people and shall the water rents rates be reduced so as to enable the working man to use city water in his home?

The Advocate says "yes."

The American-Tribune says "no."

The Tribune favors a postponement of the proposition till the people have "more light"—but in fact it is in order that the water company may have the city at its mercy and force it to buy water at the present or even higher rates.

The City Council has pledged itself not to issue bonds till necessary, so the only objection raised by the non-partisan committee to the proposition has been met and I am told that every member of the water works special committee will vote "yes" on the question on April 7.

The Advocate is to be commended for taking the people's side of this important question. If it is defeated on April 7, for remember a two-thirds vote is required to secure its passage, the city may as well make up its mind right now to a renewal of the present system as the water company will have plenty of time to fix things up so that the measure can not be passed in time to have a new plant built or the old one purchased before the city's contract expires.

There is in my mind far more danger of delay than there is in the possibility of having the bonds issued too soon. A delay is dangerous. Delay means surrender to the Water Works company. A favorable vote means city ownership and cheaper water.

Vote "yes" on the water works proposition, I say, and you will benefit every tax payer in town.

The Advocate is being praised on all sides for its fight in the people's interest. Keep it up. The people are getting awake and I hope enough of them will realize the situation so as to vote intelligently on April 7.

## FOR FIFTY YEARS

Elias Evans Attended Every Service at Welsh Hills Baptist Church Except When Sick.

The funeral of Elias Evans of the Welsh Hills, which took place Thursday, was attended by a large number of friends who took the opportunity to pay their last respects to one that was always a good citizen, a kind neighbor and an affectionate father and husband.

Mr. Evans was born April 6, 1834, on the farm where he resided until his death. He lived a pure life. A rather remarkable fact that during the fifty years of the time he was a member of the Welsh Hills Baptist church, he never from any cause other than sickness, missed attending every meeting of that church.

He leaves four brothers, a wife and three children. Mrs. Ella Burbank of Cincinnati, Mrs. Ina D. Hoover of Lake Benoit, Minn., and Carey Evans of Welsh Hills. Those who carried him to the grave were his neighbors and friends, H. M. Coulter, H. B. King, D. W. Hankinson, Joel Cade, H. J. Williams and W. H. Pittsford.

Brakeman E. M. Walcott is nursing a boil, and is unable to work in consequence.

Francis Marion Cockrell, of Missouri, is the dean of the Democratic side of the Senate and was the first native of his state to be honored with selection to that body.

Henry Hitchcock, the brother of the Secretary of the Interior, whose death was announced recently, was said to be the original Stephen Brive of Winston Churchill's historical novel, "The Crisis."

## OHIO TEACHERS

WILL RECEIVE PENSIONS IF THIS LAW PASSES.

Toledo Law Unconstitutional, Because It Was Special Legislation, This to Be General.

A new bill that will be of interest to thousands of teachers, school board members and citizens generally, in Ohio was decided on at a meeting of the Cincinnati Teachers' Pension Fund Trustees at the City Hall Tuesday afternoon.

It provides for pensioning public school teachers throughout the state in consideration of their paying a fee of \$2 a month. This payment is not compulsory, however. Teachers are given the option of paying it or not, but of course if they decide not to pay it, they are not entitled to receive a pension.

The bill provides that the Board of Education of any school district in any city, village, special school district, township or subtownship school district shall have authority, if it desires to do so, to establish a teachers' pension fund, provided a majority of the members vote in favor of it. This fund is to be controlled by a board of five Trustees, of whom three are to be elected annually by the public school teachers at a meeting called by the superintendent of schools. The other two members are to be chosen either by the Board of Education, or one by that board and one by the high school board. This point has not yet been fully decided on.

The five trustees are to serve without compensation. As soon as a school board has decided to establish a teachers' pension fund the clerk of the board must notify all the public school teachers of that school district, and they are required to inform the board within 60 days whether they are willing to accept the provisions of this act or not. If they do not accept before the expiration of that period they cease to be eligible for a pension. This applies only to teachers already in positions at the time the pension fund is created. Those who are appointed afterward are to be given six months in which to decide whether they are willing to pay the pension fee or not. The fee of \$2 a month is to be deducted from their salary and applied to the credit of the pension fund.

The bill also provides that after a teacher has agreed to pay he must continue to do so as long as he remains a teacher. This will probably be changed so as to permit any teacher to withdraw from membership in the pension fund any time he desires to do so with the understanding that he forfeits all he has paid in by withdrawing.

The bill authorizes the educational boards to retire teachers on account of physical or mental disability after they have taught 20 years in public day schools, and teachers can retire of their own accord after 30 years' service provided three-fifths of this

time has been spent in teaching in the public schools of the school district in which they retire or are retired. The other two-fifths of the service can be in public day schools in any part of the world.

If teachers are retired they receive back half of the money they have paid into the pension fund. If they retire they are placed on the pension list and receive an annual stipend equal to \$10 for each year of their service in the public schools.

It is provided, however, that this pension shall never exceed \$500 per year.

The Superintendent, Assistant Superintendents, Principals, supervisors, and special teachers in the public schools, both male and female, are eligible to the pension as well as regular teachers.

A rough draft of the bill was drawn up by Attorney Drausin Wulsin at the request of the Cincinnati Teachers' Pension Fund Trustees, and he will now put it into proper shape in co-operation with Corporation Counsel Hunt. The Supreme Court recently declared the teachers' pension law of Toledo unconstitutional because it compelled teachers to pay double taxes. As the Cincinnati Teachers' pension law had the same defects it was desired to remedy it. This has been done by making it a general law of uniform operation throughout the state and by making the payment of the pension fee optional. The bill will be taken to Columbus by Mr. Wulsin and handed to Senator Nicholas Longworth for introduction in the Legislature.

## THE TWICE COOKED FOOD

### A PERFECT FOOD

The Elements That Must Enter Into Our Food.

A food to be perfect must meet all the demands of nature for nutrition and be easy of assimilation.

Wheat contains more food element than any of the other grains, but just it is not properly cooked it acts just the reverse, not only laying in a sticky starchy mass in the stomach, but retarding the digestion of other foods.

The food expert who originated Malt-Nut experimented for a long time on the problem of preparing the wheat so as to render it easy of assimilation. By a new process the grain is subjected to intense heat until the starch becomes dextrinized. This process takes it through the first and hardest stages of digestion. The grain is then treated to the emulsified oil of nuts, thus giving Malt-Nut the brain and muscle properties of the wheat, and the fat and tissue building elements of the nut oils giving it the most rich, nutty flavor, and at the same time the nutrition of beef and mutton.

The family that has not tried Malt-Nut has deprived itself of one of the most luxurious of life. It can be purchased of all progressive grocers.

### A CONDENSED FOOD

One Pound Equals Four Pounds of Best Beef.

While those learned in the science of medicine have been busy making discoveries along the line of medicines and surgery, men who have devoted their lives to the science of food have made as great, and perhaps, greater strides.

A food expert now comes forward with a food in a condensed form, which has cost him many months of study and experiments. Each pound equals in food value, four pounds of beef or mutton. This new production is called Malt-Nut, and is made at the factory of the American Pure Food Co., Ltd., Battle Creek, Mich.

It is a combination of wheat, heat digested, twice-cooked, malted, and the oil of nuts emulsified. The wheat furnishes the brain and muscle elements demanded by nature, and the nut oils the fat and tissue properties so essential to the human body.

It has a dainty, delicate, nutty flavor that at once appeals to the palate of thoughtful progressive people. When Malt-Nut once has been served to the family, it becomes a daily addition to the bill of fare.

Malt-Nut does not lay in the stomach fermenting and decaying, retarding the digestion of other foods, but is easily assimilated and converted into bone and muscle.

## HINTS FOR FARMERS

**No Profit in Scrubs.**  
When raising live stock on the farm with a desire for profit, scrubs should not be taken into the calculation, for there is no profit in that sort of goods. Cattle and hogs are the kinds most commonly kept, and they have been so far improved as machines for converting low priced farm produce into high priced marketable products and the business has reached such a point in the adoption of supply and demand that profits accrue only when the improved sorts are used. Scrubs cannot compete with improved breeds in production of pork, beef, milk and butter because they cannot make hear so much from the same amount of feed. A good hog, for instance, will attain a weight of 250 to 300 pounds at nine months old, while a scrub must be fed a year and half or two years to do the same. So it is with beefmaking and dairying. This fact is especially well felt now that feed is twice as high and animal products little, if any, higher in price than a year ago.—Farm and Ranch.

**Live Stock and Fertilization.**  
In every agricultural country where farm grown live stock is a neglected branch the soil is steadily deteriorating. The Russian minister of finance reports a decrease of 27 per cent in the average productivity of the farm lands in that country. In Great Britain farming has declined in every section where the live stock has decreased in numbers. Dr. C. E. Thorpe, recently read a paper before a meeting of the Ohio board of agriculture that contains much food for thought. He stated that during the last fifty years Ohio had gained nothing in numbers of live stock, but has doubled her area in grain and is now paying \$1,500,000 a year for commercial fertilizers. This is a plain indication of the deterioration of the soil's fertility. A similar condition prevails in this country generally, and the remedy plainly is to keep more live stock and grow more fertilizing crops. The only alternative is the purchase of the commercial fertilizers which devour the profits of the farmer.

**Starting Tomato Plants.**  
The New Hampshire experiment station has made some tests with methods of starting tomato plants. In one test the plants were transplanted into small boxes so arranged that the bottom would be easily removed and the dirt allowed to slip out, and in the other they were transplanted into four inch pots. "When the pots were used, the plants matured and bore fruit earlier than the plants in the first experiment. The station notes that "while the pot system takes more time and occupies more space, yet from the experiments made it surely pays."

Another experiment showed that the kind of soil in which the tomatoes were planted seemed to have an effect on the amount of rot produced. Where the soil was inclined to dry out the rot was more prevalent, while on a loamy, moist soil there was very little rot.

**Why You Should Balance Rations.**  
Twenty years ago nearly all farmers and educators believed that feeding a rich food made rich milk and feeding poor food made poor milk. Since that time experiments have clearly shown that the general belief was wrong and that milk cannot be made to contain more fat by the feeding of fatty foods. When a large amount of fat is fed to a cow, economy takes a certain per cent of it and elaborates it into milk, after which all the fat in the food in excess of that which goes to make beef is discarded in the excrement. Therefore if food too rich in fat is fed the manure and not the milk is enriched. The certain percentage, of course, varies in different cows.

**Science on Apple Scab.**  
The parasite fungus usually called apple scab does not winter, as has been supposed, on the twigs of the tree, and therefore it cannot be killed by spraying before the buds open. This is a very important matter in practical orchard management, for success hinges upon its destruction and is dependent upon a knowledge of its life history. For best results the first application of the fungicide, usually bordeaux mixture, should be made just after the leaf buds open.—Illinois University Department of Agriculture.

**Indigestion in Fowls.**  
When birds begin to mope around, not caring to eat, and their odors are found to be offensive, there is trouble that must be attended to at once or more complicated diseases will set in and many birds may die. The disease is indigestion caused by feeding too much rich food. As soon as discovered the birds should be put on a plain diet, which should be reduced in quantity as well as quality. With their diet it will be wise to mix a little powdered charcoal or give the birds rhubarb pills, one grain to each chick.

**Only Half Crop.**  
The farms of this country are not crowded if the average yields per acre of cereal crops are evidences. There is a lack of judgment in farming, and there is also plenty of room for improvement. We should grow twice as much wheat and corn on the area annually devoted to those crops. There are probably too many large farms that are not well cultivated, and it is these that reduce the average yields.—American Fertilizer.

**Pasture For Swine.**  
Where clover pasture is not available for hogs it is advisable to sow small pieces of rape at successive periods during the spring months. These may be pastured off in turn. When a plot is eaten off and the pigs removed, the rape will start up from the roots.

## FIVE DOLLARS A BOX

The Price Cut No Figure With Him.

"I want to say for the benefit of some poor dyspeptic that Stuart's Dyspepsia Tablets will give comfort and cure every time. Five dollars a box would not stop my purchasing them should I ever suffer again as I did for a week before using them."

The one 50 cent box I bought at my druggist's did the work and my digestion is all right again.

Many of my neighbors have tried these tablets and found them to be just as represented and Mr. Ellms also wants me to use his name in endorsing Stuart's Dyspepsia Tablets. Signed.

A. ELLMS and CHAS. F. BUZZLE, Asst. Postmaster, South Sudbury, Mass.

Mrs. Jas. Barton, of Toronto, Canada writes: "For eighteen months I suffered from what I supposed was bladder and kidney trouble, and took medicine from three different doctors, with out any sign of cure. I felt so ill at last I was hardly able to do my work."

"I thought I would try a box of Stuart's Dyspepsia Tablets and see if they would make me feel better, never really thinking I had dyspepsia, but after only three or four tablets had been taken all the acid trouble disappeared, while the doctors had been treating me for kidney and bladder trouble and one of them treated me for rheumatism."

"My digestion is fine, my complexion clear and I am able to do my work and low spirits are unknown to me."

"I am so thankful for finding a cure so good and so pleasant to take as Stuart's Dyspepsia Tablets. I am surprised at the change they have made in me."

All druggists sell and recommend Stuart's Dyspepsia Tablets, because they contain only the simple natural digestives, and take after meals prevent acidity and cause prompt digestion and assimilation of food.

Physicians everywhere endorse them because they are as safe for the child as for the adult; they are invaluable for sour stomachs, nervous dyspepsia, heartburn, gas on stomach and bowels, and every form of stomach derangement.

## SACRED WEEK

DEVOTED TO FASTING, PRAYER AND PENANCE.

End of the Lenten Season—Services of Holy Thursday, Good Friday and Easter.

In the Christian world the present week is considered the most sacred of any in the calendar.

In the Catholic world the week will be devoted to fasting, prayer and penance, especially today, Friday and Saturday, which are known as the black fast days. On these three days the use of meat is absolutely forbidden, and those who possibly can are to abstain from more than one meal on each day.

The services of the passion begin on Spy Wednesday, continue through Holy Thursday, Good Friday and Easter Saturday and ending on the glad resurrection morn.

On Wednesday Thursday and Friday evenings the solemn service of the tenebrae is held. Thirteen candles are lit and placed in a triangular candelabrum. Then there is intoned the solemn psalms that relate especially to the passion, together with the sad, doleful lamentations of Jeremiah, the prophet, when he wept over Jerusalem. At the end of each psalm a candle is extinguished, until all of the original thirteen are extinguished, save one, which is left lighted at the top of the triangle. This ceremony is indicative of the growing darkness that overspread the world when Christ the light of the world, was apprehended by his enemies. The candle that still remains burning until after the chant of the psalm "Blessed be the Lord God of Israel, etc." is then taken and hidden for a while. Then it is again brought out to view to remind us that death could not really obtain dominion over Christ, though it appeared to do so. Lastly, the clapping and confusion that completes the ceremony signifies the awful noise and confusion that occurred when our Lord's spirit took flight.

On Holy Thursday the day before Christ died, the holy eucharist was instituted. Only one mass is said on that day. The "Gloria in Excelsis" is sung amid the joyous ringing of bells and the loud peals of the organ. After that all is silence. The organ is hushed, the bells no longer announce the solemn moments of the sacrifice, for on the morrow Christ is dead. After mass the procession of the blessed sacrament takes place. The "Pange Lingua" is sung, lights are lit, and the blessed sacrament is removed from the central altar to one especially prepared for its reception, and which is sometimes called the holy sepulchre, but more properly the altar of repose. On Good Friday all altars are stripped and draped in deep mourning, the passion is sung and this is followed by the stripping and adoration of the cross. In all the churches a sermon on the passion will be preached Friday evening.

On Saturday the new fire is blessed and preparations are made for the day following. The Easter and holy water are blessed and the bells, which have been muffled since Thursday, ring out. On this day also the paschal candle is blessed and other ceremonies of the church take place. This is the last day of the Lenten season.

## Buy at Home.

When making your purchases always give Home products the preference. If you smoke, buy Newark cigars; when you order a sack of flour, call for Newark flour; when you need a suit of clothing, a pair of shoes, a hat, a bill of groceries, a silk dress, a new carpet, a stove or what not, buy it in Newark. Everytime you will get the best right here at home and at a reasonable price. Help to make Newark boom by buying in Newark. Keep Newark money in Newark and you will have a better chance to get a piece of it back than if you send it to Columbus, Chicago or elsewhere. Do your buying at home.

## INJUSTICE

IN TAXES FOR STATE COMMON SCHOOL PURPOSES.

Licking County Paying \$4,000 More in to the State Treasury Than She Draws Back.

The following circular letter sent out by the Hamilton county taxpayers' Association furnishes information that is worthy of consideration by the taxpayers of Licking county. There is an injustice in this matter of taxation for the State common school fund that has gone on for many years and the time is certainly coming for seriously considering some new plan. Counties like Licking should not be taxed to pay for the schools of other counties of the state. We commend the letter, which follows, to our readers:

Cincinnati March — 1902.

To the Citizens and Taxpayers of Licking County, Greeting:

We respectfully call your attention to the fact that you county paid to the State Common School Fund in excess over what it received from the same source as follows:

In 1899, \$3951.84 (see Report of State Auditor, page 212).

In 1900, \$4423.44 (see Report of State Auditor, page 237).

Thus you see that this uncalled-for and iniquitous State School Tax Law will annually cost your citizens about the above sum until it is repealed by the State Legislature.

In order to bring this about, Representative Hon. W. C. Gear has introduced a measure, (House Bill No. 130) which abolishes all State School taxes.

To pass this bill it will require the assistance of the Legislators from all counties, which suffer on account of this iniquitous law, and to do your share to save this sum for your locality in the future, we most respectfully request that you advise your fellow citizens of this state of affairs, by distributing these circulars among your neighbors, and to send a copy to each newspaper of your county.

In addition to this, it would be well for your leading citizens and organizations to request the representatives from your district to vote for this bill. In case you should desire to form an organization among the taxpayers of your county, or wish any other information we would be glad to render all the assistance possible.

Respectfully yours, THE TAXPAYERS' ASSOCIATION, Fred Tukey, Secy.

Samuel Nieman, Pres.

## MOST LADIES NEED A TONIC EVERY SPRING.

MRS. BARBARA McDONALD, President of the St. Louis Blue Ribbon Club, writes the following letter concerning Peruna from 297 Dayton street, St. Louis, Mo.:

"It is with feelings of gratitude for benefits derived from the use of Peruna that I desire to proclaim to human-kind my experience, hoping that it will benefit some unfortunate sufferer like myself."

"Suffering for years with what appeared to be an incurable malady, and after a great expense incurred consulting physicians without any benefit, I was recommended to try Peruna. As a last expedient I purchased a bottle, and before one-half of the contents were used I felt the beneficial results. I am continuing to use same, and might say I am entirely well. My disease seemed to be catarrh of the stomach, and the nauseating sensation, and the heavy, languid, tired-out feelings with which I suffered, especially after eating, have entirely left me, and my digestive organs are in splendid condition, all of which I owe to the use of Peruna."

MRS. BARBARA McDONALD.

Miss Julia V. Teller, of 2516 Prairie street, Milwaukee, Wis., is President of the German Young Woman's Union. Her opinion of Peruna is given in the following words:

"Our German Young Woman's Union has nothing but praise for Peruna. Three of our members have been most wonderfully helped. One of them had the lassitude incident to spring weather is especially trying to women. Allments peculiar to the sex of many varieties are especially prone to aggravation. All this class of affections are fitly described by the term 'pelvic catarrh.'"

Any woman wishing to be placed on the list of Dr. Hartman's patients for free home treatment and advice should immediately send name and symptoms, duration of disease and treatment already tried. Directions for the first month's treatment will be promptly mailed free of charge. No free medicine will be supplied by the doctor, but all necessary directions will be furnished.

Read what the above ladies have to say of Peruna as a cure for these cases.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

## A Child Apiece.

Cleveland, O. March 26.—Little does Mrs. Kirke D. Bishop, who is stopping with her two boys at the Colonial Hotel realize that though allowed the freedom of the hotel and the city, she is virtually a prisoner.

While her divorced husband is seeking, through the Courts, to get possession of his boys and hers two detectives haunt the corridors of the hotel if she remains indoors, or follow her at a distance if she goes out. Mrs. Bishop is herself well protected from annoyance.

The long conference between the lawyers and Judge Stone resulted in a decision to send for Edward F. Evered of Connecticut, a brother of Mrs. Bishop, at whose instigation Bishop began the action to get possession of the boys.

In the meantime Bishop and his wife get a child apiece.

## A New Law.

Robert W. Howard, clerk of the County Board of Elections, received a letter from the Secretary of State calling his attention to the law passed March 19, providing that elections for members of Boards of Education in Special School Districts must be held the first Monday in April hereafter.

Heretofore some of the Special School Districts held their elections on the second Monday of April, but this is done away with under the new law.

All nominations must be certified to the county board of elections 45 days before election.

## BROTHER

Of Rev. Lucius Kessler of Newark, Who is a Priest at Columbus was Hurt Monday.

Father C. F. Kessler, one of the assistant priests at the Columbus Cathedral, brother of Father Lucius Kessler of the St. Francis de Sales church, this city, sustained an accident Monday afternoon which might have cost him his life. He was helping to trim the altar for the services of Holy Week, when he missed his footing and fell from the ladder to the floor below, a distance of nearly twenty feet. He was unconscious for as long as a half hour, but after regaining possession of his faculties improved rapidly. It is not thought any serious results will follow.

NERVES

is the enemy of all neuralgic and other nerve troubles. Accept no substitutes for it. Neuralgic pains do not cure or relieve all diseases. It only RELIEVES PAINS CAUSED BY NEURALGIA AND OTHER NERVOUS TROUBLES. No matter how bad the case is, it must succumb to the all-powerful influence of Neuralgylin. Neuralgylin, by soothing the nerves, restores them to their normal state.

Neuralgylin is absolutely harmless. It is a combination of health giving chemicals. Try a box of it if you are one of the great army of neuralgic sufferers. ONE RELIEF WILL BRING YOU RELIEF WITHIN TWENTY MINUTES. Read what these representative people have to say of Neuralgylin:

I have been a great sufferer from neuralgia. Neuralgylin has effected a permanent cure in my case. Miss E. V. Evans, Sistersville, W. Va. I have suffered for over a week with neuralgic pains in the head, unable to sleep and nearly crazed with pain. Thirty minutes after taking one NEURALGYLINE tablet I was completely cured. Mr. J. K. Sims, St. Paul, Minn.

Your suffering can be relieved too! Every first-class druggist in town sells Neuralgylin. Price, 50c a box. If you find that Neuralgylin is not as represented, money will be cheerfully refunded. Samples free on request.

## STATE NEWS

HAPPENINGS IN ALL PARTS OF OHIO.

All Sorts of Buckeye News Items Boiled So that Only Real Facts Remain.

Kenton—John F. Kayler of Bellefontaine, and Miss Evangeline Musser of Lima, aged 72 and 60, respectively, were married here by Rev. R. D. Holinger.

Findlay—Bertha Rader, aged 18, has brought suit to recover from the heirs of Susan Gault, her grandmother, what she claims the old lady promised should be hers when she was a child of 2 years. Mrs. Gault took the girl when the death of her father and mother left her a helpless babe, and promised to her son on his deathbed that her property should go to this child. Although the girl lived with and cared for her, the old lady cut her off. There is a \$50,000 estate involved.

Lancaster—A reward of \$25 has been offered for any information that will lead to the finding of the missing Mrs. McCleery, dead or alive. She disappeared, thinly clad and without money a month ago. Her two daughters are employed in a shoe factory here, and their means are limited, but they are willing to spend all their hard earnings in an effort to find their mother.

Sandusky—In attempting to make an arrest Eli McKelvey, a soldier at the Soldiers' Home, detailed to do police duty, was probably fatally stabbed by another soldier, Henry Springman. The latter is now in jail.

Lima—H. E. Stocum, traveling salesman of this city, has disappeared. Stocum's wife and child were furnished funds to take them to the home of her parents, in Washington, Ind. Stocum's accounts are being investigated.

Delaware—Charles Wood cut his throat from ear to ear with a butcher knife and then hacked his windpipe with a penknife. The verdict of the coroner is temporary insanity from worry over a recent financial deal.

Tiffin—Mrs. Emanuel Heimbaugh disappeared with all of the household goods except a picture of her mother-in-law, William Decker, a saloon roundabout, has disappeared. She is 55 years old.

Zanesville—Mrs. George Shepherd, who was perhaps fatally wounded by her husband at Redkey, Ind., was formerly Miss Maggie Mallen of this city.

Youngstown—The body of the brakeman killed in the wreck on the P. Y. and A., has been identified as that of Vern Miles, of Brockton, N. Y.

Cleveland—Robert Bedford, indicted with Griffin Mayo and Frank Strong for the murder of Emil Goodman, acknowledged that he was implicated.

North Baltimore—Levi Ireland, aged 35, was instantly killed by a B & O train.

## WATTERSON

Lectures at Taylor Hall Friday Night on Life, Career and Death of Lincoln.

Hon. Henry Watterson will appear in Taylor Hall, Y. M. C. A. building on Friday evening March 28 to deliver his famous lecture on the Life, Career and Death of Abraham Lincoln. Reserved seats are now on sale at the office of the Y. M. C. A. To all not holding course tickets the price of admission is 75 cents. This price includes reserving of seat.

In speaking of Mr. Watterson, the Denver Post says: Mr. Watterson's treatment of Lincoln is most original.

HENRY WATTERSON.

It is not a rhapsody, and yet is eloquent; it is not a biography, and yet it is full of interesting narrative and characteristic anecdotes. The orator subordinates himself to his theme. The listener goes away feeling that he has seen and talked with Abraham Lincoln.

The following taken from the Chicago Evening Journal speaks well for the great orator: Henry Watterson's brilliant, beautiful and affecting oration upon Abraham Lincoln is a contribution to literature no less than to oratory. No picture of the great martyr has been so vividly drawn, no picture has been so picturesquely colored as this one, drawn and colored by a Southerner who was once a rebel in heart and act. It is an imperishable wreath on Lincoln's imperishable tomb in the hearts of his countrymen.

Mr. Ernest Seton-Thompson who was to appear in Taylor hall Thursday April 10, has cancelled his engagement owing to the lateness of the season. It is hoped that Mr. Thompson may be secured early next season.

When You Get a Headache don't waste a minute but go to your druggist and get a box of Krause's Headache Capsules. They will prevent pain, even though your skull were cracked. They are harmless, too. It's the guarantee. Price 25 cents. Sold by all druggists. dw

## DRESSING GOWNS.

Favorite Shape the Empire-Japanese Robes.

Pretty dressing gowns that may be worn at the family breakfast table are made of soft washing cashmere, lined with washing silk. The cashmere may be plain or flowered, but the lining should always be plain white or of some pale color which will not change color when washed. Instead of silk, thin cotton sateen may be used for lining if economy has to be studied. The favorite shape is still the empire, with its fullness gathered into a square yoke of torcheon lace, lined like the gown itself. The hem of the gown may also be covered by an insertion of the same torcheon lace. The sleeves are in bishop shape, the wristbands being of torcheon lace and also frilled with the same lace. Red, white, cream and pale blue are the usual colors for the comfortable and even necessary morning wraps.

Panne also makes handsome dressing gowns, almost handsome enough for

CHILD'S DRESS.

tea gowns. The yoke and other trimmings may be of Irish lace or colored embroidery, as you prefer. Both are equally elegant, and both wash equally well.

Japanese dressing gowns, however, are the greatest "cry" just now. If made entirely of Japanese embroidery, however, they are too expensive for many purposes. But the gown itself may be made of some pretty, pale colored cashmere or silk, with the neck, pockets and sleeve bands of Japanese embroidery.

The picture shows a child's dress of fawn colored summer cashmere trimmed with narrow braid. It has a white silk collar and vest.

## THE NEW MILLINERY.

Jabots of Lace and Tulle—Smart Hats.

In the world of millinery the changes are not so great as one might have expected. In fact, the shapes have varied but little. It is curious how women remain faithful to the wide, flattened boat shape. On all sides at present are models of it in white cloth draped with beautiful lace and the inevitable diamond or pearl buckle. It is a very comfortable form of toque, and nobody looks particularly plain in it, but, on the other hand, it is not particularly becoming, added to which it undoubtedly ages a face. It requires a piquant style of beauty to make the boat shape really successful.

There is a small edition of the Gainsborough style coming in which will be

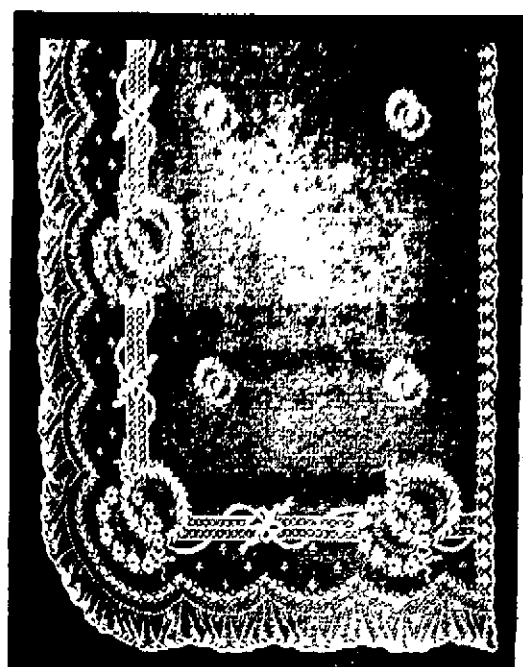

COSTUME OF WHITE CLOTH.

Distinctly becoming and will form a pleasing change from the three and four colored chapeaux, of which we have not thoroughly tired, although they were extremely beautiful in color. But had feet, simply in a of upon gold points, with very often a purple line beneath, and straight here, have rather discolored one in the center of the three colored hat.

The white cloth costume in a picture has a skirt made of one of the latest patterns. The front is of the same and lace.

**Hagee's  
as it is**

Hagee's Cordial of Cod Liver Oil (with the purest cod liver oil) is pure Norwegian cod liver oil with the grease left out. It is a thin, palatable fluid with very pleasant odor and very agreeable taste. Physicians recognize cod liver oil as the greatest tonic, stimulant, alterative, reconstructive, nutritive and digestive—but it is more effective when the grease is removed. Hagee's Cordial contains no grease. Hagee's is immediately assimilated and goes at once to produce blood, flesh, nerve—and bone. It is food rather than medicine.

Hagee's Cordial cures Coughs, Colds, La Grippe, Weak Lungs, Bronchitis, Consumption, Catarrhal Conditions, Nervousness, Sleeplessness, Indigestion, Mal-assimilation, Rheumatism, Skin Diseases, Pimples, Blisters, Weakened Conditions following fevers, Impoverished Blood—makes more and better flesh—by restoring natural conditions. DENOUNCES STATEMENT SENT  
FROM HAVANA AS A LIE.

**THE MEN WILL APPEAL CASE.**

Sent to P. son by Order of Court in  
Havana—Text of Rathbone's Mes-  
sage Home.

Washington, D. C., March 26.—When shown a dispatch from Hamilton O., containing Major Rathbone's cablegram to a newspaper that Wood was responsible for the heavy sentence, Governor Wood said today: "You can say for me that the whole matter is a lie. Rathbone and his associates had a fair trial in every sense of the word and there was no government interference at all. I wish to repeat that the statement is a lie."

Hamilton, Ohio, March 26.—Major Esteban G. Rathbone, convicted in Cuba for alleged postal frauds cabled the following message to a newspaper here: "In my case the verdict is the result of General Wood's orders to those at the courts. It is a political conspiracy. I will appeal the case."

It was from Hamilton that Rathbone was appointed chief postoffice inspector and later fourth assistant postmaster general.

Havana, March 26.—Neely, Rathbone and Reeves, convicted of the Cuban postal frauds and each sentenced to 10 years and heavy fines are confined in jail by order of the court.

**FISH AND GAME**

Several Important Changes to be Made in the Open Seasons—After Reutinger's Scalp.

Columbus O., March 26.—The fish and game committee of the house held a long session Tuesday evening for consideration of two bills.

The first was the Castle bill, to reorganize the state fish and game commission and incidentally to oust from office L. A. Reutinger state game warden, by abolishing the position he now holds. B. F. Sietner of Dayton appeared before the commission and spoke for the measure, but action on it was deferred. The Archer game bill was recommended for passage after it had been amended. The principal amendments relate to the open seasons. Under the amended bill the open season for squirrel and woodcock is from September 15 to October 15; for quail from Nov. 10 to Dec. 1; for duck in the spring from March 10 to April 20, and in the fall from Sept. 15 to Dec. 1. The provision relating to obtaining the written consent of property owners to hunt on farms was extended so as to cover fishing and trapping. The Quail bill relating to fishing on Lake Erie was also recommended for passage and will be made a special order for Thursday.

**SCHOOLGIRLS KNOW ITS WORTH.****Paine's Celery Compound**

GIVES THEM ENERGY, SNAP AND FULL LIFE.

It Enables Them to Attain the Blessings and Vigor of True Womanhood.

Women and girls in every stage of life who have used Paine's Celery Compound know that it is a blessing that sick and run down females cannot afford to be without.

Modjeska, the peerless queen of artists, voices the sentiments of thousands of women and girls who have tested the strength making and life giving virtues of Paine's Celery Compound when she says: "I have found Paine's Celery Compound the best of all remedies for the nervous exhaustion consequent upon the arduous work of my profession." Overworked women in the home, and weak, languid school girls have found in Paine's Celery Compound the health and vigor it so strongly guarantees.

Ida Mallory of Allentown, Ill., with the view of benefiting young girls, writes as follows: "I was taken last spring with what the doctors called nervous disease and neuralgia, and three or four doctors treated me all last summer without doing me any good. My father started to travel with me, and in our travels a friend told me to try a bottle of Paine's Celery Compound. My father bought a bottle of it, and it helped me so I took two bottles more which entirely cured me. My father has nervous headaches and he has been taking Paine's Celery Compound, and says it has done him five hundred dollars worth of good. We are using the fourth bottle in our family, and we consider Paine's Celery Compound worth its weight in gold for nervous and other troubles."

EASTER EGGS should be colored with Diamond Dyes. Four colors for Easter 10 cents.

**X RAYS**

USED IN TREATING MALIGNANT CANCER.

The Patient is Milton McKeehan, a Brother-in-Law of Senator Foraker.

Cincinnati, March 26.—Again the efficacy of the X-rays in the cure of cancer has been established, and on no less a person than Mr. Milton McKeehan, a brother-in-law of Senator Joseph B. Foraker.

Mr. McKeehan, who is a resident of Hillsboro, Ohio, and known through out the surrounding country, has been suffering from cancer for over 18 years the dread disease attacking the left side of his nose. Only recently when a number of the leading journals published the wonderful results achieved by the use of X-rays did Mr. McKeehan have any hope that he would ever find relief. Eight weeks ago he came to this city and submitted himself to the care of Dr. John T. Knox, of West Seventh street. Every day during the eight weeks he received treatment, which consisted in exposing the face to the rays for 10 to 15 minutes at a time. Yesterday he received the last treatment, as the new tissue that had formed showed conclusively that the disease was eradicated. The theory upon which the cure of cancer by means of the mysterious rays is that the disease is due to micro-organisms, and that this germ belongs to that class of germs that cannot live in the light.

**Canal Bill Dead.**

The Painter bill for the abandonment of the canal is dead. The committee on public works reported the substitute Tuesday afternoon and it was accepted by the house and the original measure laid away.

The substitute is the same as that already published with the exception that in the preamble the word "forfeiture" is eliminated and the state is pledged only to the care and maintenance of the canals without time limitation. It will be further amended by the provision that in case of abandonment the state shall only pay 75 per cent of the value of the boats on the canals instead of the full value as originally provided. It was made a special order for next Tuesday at 10:30 o'clock and will pass almost certainly.—State Journal.

**NEWARK HORSES**

## A Name Twice Made Famous, Now a Shining Mark for Imitators.

The name "Chase," twice made famous, is a shining mark for the unscrupulous to possess upon the public their worthless preparations. These birds of prey, by using the name Chase, expect the public to be fooled into believing they are the medicines of Dr. A. W. Chase, who first became noted as the author of the world-famous "Chase's Kidney Pills" and "Chase's Blood Purifier." These pills are now doubly increased by the wonderful success of his "Nerve Pills," "Nerve Brain and Blood Tonic." They play upon the name Chase, but dare not use the initials "A. W."

They imitate, but dare not counterfeit the portrait and signature of Dr. A. W. Chase, which identifies the Nerve Pills now recognized as infallible for building up pale, weak, thin-blooded, nerve-depleted sufferers.

Who are nerve-tired and brain-weary. Who are easily exhausted. Who are wakeful—cannot sleep. Who have nervous headaches.

They remove the cause of blood impurities, securing refreshing sleep and impart strength.

They build up people who find their strength and vigor waning.

They settle irritated nerves, replace languor and lassitude with energy and animation. Cure Nervous Dyspepsia.

**CAUTION.**—The protection to the public in securing the genuine and original Dr. A. W. Chase preparation is in seeing the portrait and signature of A. W. Chase, M. D., on each box. These and these only are the genuine. Do not be satisfied with anything bearing the name "Chase" without the initials A. W., so etc. of Druggists or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

## CASH FOR BOYS

OF BATTERY G FIRST OHIO LIGHT ARTILLERY.

Capt. Miller Has Schedule of Amount Due Each Member—Boys Should Call and Sign.

Captain W. C. Miller, formerly of Battery G, First Light Artillery which served in the war with Spain, has received a schedule of the amount coming to each man for his service, and also the muster rolls, which will be signed by the members of the battery or their heirs, if they be deceased.

At the beginning of the war with Spain and previous to the time that the men were mustered into the United States army, they served for some days. The State paid them \$1.48 per day for this time, leaving a balance of 52 cents per day. There was no provision in the state laws for the collection of this, but Congress has allowed the money.

The schedule of the amounts due each member of the battery is now in the hands of Captain Miller and he will keep the muster roll for several weeks before returning it. In that time all interested will have an opportunity of calling and signing the rolls, which will entitle them to additional money.

Quite a number of the members of the battery have already signed the rolls. Following is a list of the members to whom money is due:

Capt. W. C. Miller, \$66.60; First Lieut. Charles F. Sowersby, \$54.14; Second Lieut. Francis E. Symons, \$50; Second Lieut. Charles W. Kellenberger, \$50; First Sergt. Roderick I. Speer, \$12; Second Sergt. Simeon P. Jones, \$8.64; Third Sergt. Wm. B. Evans, \$8.64; Fourth Sergt. Fred E. Jones, \$8.64; Fifth Sergt. Wayland C. Marlow, \$8.64; Sixth Sergt. Albert R. Webb, \$8.64; Seventh Sergt. Reginald Woolway, \$8.64; First Corporal Homer W. Allen, \$7.20; Second Corporal Guy Watkins, \$7.20; Third Corporal Fred L. Brooke, \$7.20; Fourth Corporal Edward R. Dickinson, \$7.20; Fifth Corporal Melville D. Farmer, \$7.20; Sixth Corporal Edward G. Daily, \$7.20; Seventh Corporal C. Roy Thompson, \$7.20; Eighth Corporal Fred J. Styron, \$7.20;

The following named privates will receive \$6.24 each: Frank M. Alexander, James Alward, Chas. S. Adams, Jas. Akerstein, L. D. Beaumont, Jonas Bernard, Daniel Beaumont, Horace Coulter, Andrew Cramer, Wm. W. Copeland, Wm. Clouston, Herbert N. Dean, Henry Deutsch, Alfred Drew, Edwin T. Dudley, Frank Dush, Howard W. ## HAVEN FOR NEGROES.

American Colored Folk May Emigrate to the Philippines.

MORE FREEDOM IS DESIRED.

Chaplain of the Twenty-fifth Colored Infantry Gives Reasons For Prospective Exodus—Army Volunteers Like the Country and People—Suggestion to the Government.

Few things of the future appear more probable than that important numbers of American colored people will settle in the Philippines, says T. G. Steward, chaplain of the Twenty-fifth colored infantry, special correspondent of the Chicago Inter Ocean at Iba, Zambales, Philippine Islands.

As soldiers not less than 7,000 of them have seen the country, and a large proportion of those who have been here like both the country and the people. Of the volunteers who served in those two model regiments, the Forty-eighth and the Forty-ninth, scores are coming back into the service that they may again visit the Philippines, and scores of discharged regulars are anxious to remain here.

Inquiring as to the reasons for this preference, I have received in substance the following: The colored man feels a degree of freedom here that he cannot feel in many parts of the United States. Asking an old soldier, recently discharged, when he expected to go to the states, his answer was:

"I don't care if I never go. They are disfranchising my people all over the country. I feel freer here than I do at home."

Another old soldier in the time of the worst lashing remarked, "I would rather soldier here than in some parts of the states."

These remarks must not be taken as indications of disloyalty, but as natural echoes from the experiences of the winter and spring of 1908-09. The men feel a joyous sense of their freedom, know the value of their rifles and are all right for the flag and what it stands for, but they will not say a spade is a gold spoon.

They like Texas a thousand leagues away. They remember the remark: "There are no colored soldiers. There are niggers in uniform, but they are not soldiers." Who can blame them?

Again, it is very easy for the men to obtain wives here—women differently educated from our women, of course, but nevertheless of average moral development, affectionate in disposition and according to the manner of the country, of thrift and industrious habits. They are, as a rule, well formed and not ill looking and are blessed with long, luxuriant hair. It is no unusual thing to see women with hair four feet long and even longer. They are trained to work in the house and field and to business, also, are domestic in their customs and exceedingly pious.

The American negro as a husband is so far superior to anything these women have ever seen, both in his treatment of his wife and in the provision that he makes for her, that he is looked upon by sensible women as a catch. It must be remarked also that the Filipino and the American negro have very much in common in their views of life and in their ways of making use of time and energy. When in the south directed after the war, I often saw the newly acquired home of the freedman and the old domicile of the cracker.

The approach to the former was not infrequently ornamented with white-washed stones and growing flowers and vines, while the walls within were decorated with pictures from American periodicals. The cabin of the cracker contained nothing of the sort. The negro in his cabin sang, smiled and hoped; the cracker growled, cursed and moped.

So here—the Filipino is happy and hopeful, always has time for a festa and is willing to go to any trouble to enjoy one. His festa takes the place of the negro's camp meeting and excursion. The Filipino is fond of music, although he has neither the voice nor the ear of the negro; he is fond of flowers, weddings and funerals and is the negro's superior in decorative taste and skill. He enjoys a laugh as well as the negro. The only woman on earth that I have met whose laugh can approach the richness and sweetness of the laugh of the natural colored woman of America is the woman of the Philippines.

No people could blend more readily and perhaps more advantageously than these two races. It would be a harmonious uniting of robust, vigorous progressiveness on the one side with delicacy and patience on the other, combining the practical and the poetic, the mechanical and the artistic. Such a people should be enthusiastic to plan, strong to construct and patient and tasteful in finishing.

I have observed among the children born of negro and Filipino parents some very beautiful specimens, for let me say that hundreds of marriages of this class are already formed, many of them apparently as truly love matches as can be found anywhere. The work of blending has begun.

Chinese, Filipino negroes and perhaps Japanese, if remaining in contact, will more or less melt into a conglomerate. Of course I am speaking here of the American negro, and in this conglomerate he should be the handle, or, to use a more appropriate figure, he should be the conifer uniting the occurrent to the orient.

So far as I have observed the American negro is the only occidental element that attracts. The natives stick to a use a forceful word—to the negro. They slip off of all others. He alone conserves enough of oriental ways of

thinking and feeling to understand them and to enter into sympathetic relations with them. Hence he should become America's hand of power in the orient.

I cannot predict the result of the American negro's entrance into the orient, but the movement gives signs of being a forward step in the march of history. Instead of shrinking from this movement wisdom will probably order us to aid in its development and direction.

The interest of America and of modern civilization can be greatly served just now if the negro should form the bond of sympathetic union between the awakening east and the ripened west. The American negro has occidental civilization on an oriental base. The country is well suited to the habits and training of the southern colored man, and the climate agrees with him. Here he finds tomatoes, sweet potatoes, sugar cane, rice, tobacco, cotton and corn, watermelons and chickens, all the delights of home, "acushin de possum," but shoats are in abundance, and the Filipino is all right on a barbecue. Money can be made in agriculture, especially in raising hemp and coconuts. It is probable also that there will be good opportunities in timber.

Much of the land belongs to the government and to the church. I suggest that the government appoint a commission of colored men with Dr. Booker T. Washington at its head and send it here to look over this country and pick out sites for their people and that they also have power to select the persons who are to settle here. Lands from the church might be bought perhaps. Certainly government land could be so used greatly to the advantage of the nation.

## A SUPERB BED.

Couch Being Carved From Native Woods For Hawaiian Princess.

When carver and polisher shall have done at Honolulu for Princess Kawana, the bride of the young son-in-law of Colonel Sam Parker, will repose in a couch truly worthy of a princess, says the San Francisco Bulletin. The woods employed are kaula and kou, and the carvings are representative of all the various characteristic fruits of the islands.

The wood from which the tall posts of the bed are made was obtained from an old building and is thoroughly cured, in many places being so well done that it has been cracked and split. The posts measure eight feet in height, and from the base to the top, which represents the crown of Hawaii, they will be, when complete, a mass of carving.

The kou wood which is used in the headboard is pierced for nine panels, all of which are of kaula, polished to the highest degree. Surmounting this board, which will be placed between the high posts, will be a great crown, supported on either side by sheaves of fern leaves.

The four posts will be works of art. The crown will surmount each of them, and the decorations will be designs of various fruits and flowers of the islands.

The foot of the bed will be a grill-work with splindles between two round poles which connect the foot posts. The woods are to be polished. The rails are of oak, with a veneering of kod, which will be relieved by a beading above and below.

**Happy Days on the Farm.**  
Oh, the happy, happy farmer! He is getting ready now to harness up the horses and attach them to the plow.  
The wheat upon the hillside's patch with yellow here and there.  
Where the frost has done things to it, and he hears, high in the air,  
The wild geese flying over, flying free and flying far;  
Ah, the happy farmer's dreaming where earth's greatest glories are!

The sheep are calmly browsing with their busy noses low.  
And they leave their wool in bunches on the briars where they go;  
The pigs are in the orchard, rooting round the apple trees;  
And the rooster in the barnyard suns himself and takes his ease.  
While the colts are gaily frisking in the seven acre lot.  
And the paint peels from the bobbed where the sun is shining hot.

Oh, the happy, happy farmer, after working all the day.  
Gets old Bossy in a corner and proceeds to milk away;  
Anon he holds the bucket where the calf is in the shed.  
While it frisks its tail and gaily bumps the vessel with its head;  
It slops the milk and slobbers what it doesn't want around.  
And upsets the happy farmer when it has him nearly drowned.

Oh, the happy farmer's dreaming as he always dreams in spring  
Of the crops that he will harvest and the prices they will bring;  
While the frost has done things to it, and he hears, high in the air,  
The wild geese flying over, flying free and flying far;  
He is rough upon the surface, but his heart's O. K. inside.  
His overalls are tattered, and his boots are splashed with mud.  
Still his liver's working fairly, and there's iron in his blood.

Oh, the happy, happy farmer! How his buoyant spirit soars  
As he hobbles, rather slowly, out to do the morning chore.  
His head is in the city; they're emancipated now.  
They have gone to make their fortunes and left him to guide the plow.  
Oh, the glad, the lucky farmer! He goes telling all his days  
And the lay of the land is calling for what money he can raise.

## ELECTION DAY

FALLS ON APRIL 7 AND VOTERS MUST BE REGISTERED

Properly in Precinct in Which They Live in Order to Vote—Read the Following Rules.

Election day will be Monday, April 7, and the polls will be open from 7:30 a. m. to 5:30 p. m. standard time.

Since there is to be no general registration this year, and the rules governing the special registration act will be necessary in many cases are somewhat involved, a clear understanding of the law is most desirable for the benefit of the many voters who must qualify before they can vote.

Newark electors who failed to register in 1900 or 1901 must register this spring. Those who, having registered then, have since moved to other precincts, must get removal certificates and register on Friday and Saturday, March 28 and 29, between the hours of 8 a. m. to 1 p. m. and 4 to 9 p. m., standard time.

The requirements of the registration provisions applying to this year's voting are as follows:

1. Voters who registered in 1900 or 1901 need not register unless their place of residence is changed to another precinct.

2. Voters who registered last fall and have since removed to another precinct, may get removal certificates where they registered last fall, on March 28 and 29, and file the same on either of the said days with the registrars in the precincts to which they have removed.

3. Voters not heads of families, who moved out of their precincts after March 18, cannot vote.

4. Voters who will be out of the city and more than 50 miles therefrom on the two registration days, may be registered by appearing before A. C. Hatch, clerk of the city board of elections and making affidavit to their absence on the days of registration.

5. Voters who are sick and unable to go to their proper registration places may be registered on affidavits in their precincts, March 28 and 29.

6. Voters who are heads of families and more after March 29, must get removal certificates where registered Saturday evening, April 5, between the hours of 7 and 9 o'clock, and file the same evening at their new registration and voting places.

7. Any elector of the townships of Licking county who moves into the city after March 18, cannot vote.

8. All voters must be registered in their proper precincts in order to vote.

9. Women who are properly registered may vote for member of the Board of Education in the Third, Fourth, Fifth, Sixth and Eighth wards, on April 7. Previous registration of women in these wards does not count. In order to vote women must be registered either on March 28 or 29.

## AMUSEMENTS.

The attraction this week at the  
Grand Theatre is a success. "Little  
Trixie" is a well written and clever  
comedy-drama in which "Trixie" has a  
good opportunity to show to good ad-  
vantage. She appears in it in six dif-  
ferent characters, and displays her  
versatility in every one. There are  
some thrilling situations in the piece  
and lively and musical climaxes. The  
girls in the company are pretty and  
versatile and add some good speci-  
alties—Boston Herald.

At the Auditorium, Friday night  
March 28.

"The Katzenjammer Kids," headed  
by the Blondells in the big comedy  
sensation will be seen at the Auditor-  
ium on April 1st. It is a pantomime  
comedy admitting of many specialties  
and as every member of the company  
is a star there is not a dull moment.  
The Blondells as usual head the list  
of artists, and their work is too well  
known to require any extended com-  
ment. Others in the cast are the Cos-  
mopolitan Trio, Ramsey Sisters, Bran-  
neck Sisters, Bates Musical Trio, Hen-  
ning Trio, Master Bergeman, Signor  
Heck and many others.

## A VALID EXCUSE.

Fit Judicial Reply to a Juror's Plea  
for Exemption.

(St. Louis Globe-Democrat.)

In a certain case the judge ordered  
the sheriff to call the roll of thirty-five  
"good men and true" selected for jury  
duty. Only twenty-two answered to  
their names, and the sheriff looked  
somewhat inquiringly at the judge, but  
the latter was calmly wiping his glasses  
while he uttered the customary,  
"Any desiring to be excused from ser-  
vice on this jury will now come for-  
ward."

Twenty-two men made a movement  
forward, and the clerk stopped in his  
work of noting those who had failed  
to respond to the summons to look in-  
wonder at the entire venture desiring to  
escape.

"Well," said the judge, speaking to a  
long, thin nervous looking young man,  
"Why do you wish to be excused?"

"If it please your honor," answered  
the aforesaid thin individual, "I'd like  
to be excused on account of illness. I'm  
suffering from something that might  
prove embarrassing to the other  
jurors, and it is certainly embarrass-  
ing to me."

"What is the nature of your illness?"  
asked the judge.

"Well," said the young man hesitat-  
ingly, "I'd rather tell you in private.  
I am somewhat delicate about speak-  
ing of it in public."

"I cannot hear anything in private,"  
responded the judge impatiently. "If  
you want to be excused you must tell  
me here and now what is the matter  
with you?"

"Well, if I must tell it here—I have  
the itch."

"The itch?" echoed the judge, and  
turning to the clerk without marking  
now apropos his observation was, he  
said, "Mr. Jones, scratch the juror off."

## BILLS AT NEWARK

Were Left by Young Well for His Co-  
lumbus Employers to Pay—Ar-  
rested in New York.

(Columbus Dispatch)

Wilber O. Smith of this city, is in-  
terested in the whereabouts of Julius  
Well, the young man arrested Satur-  
day in New York on a charge of pass-  
ing an alleged worthless check.

Mr. Smith states that Young Well  
was employed by his firm about three  
weeks ago to travel in Ohio and that  
as a result of his employment the  
firm is compelled to put up \$22 with  
a Newark hotel landlord in order to  
secure their sample trunks. This  
amount it is said, represents Well's  
indebtedness to the hotel. Another  
hotel bill was sent to the firm from Dela-  
ware with the statement that the  
agent informed the hotel keeper that  
the company would liquidate it.

Mr. Well's mother has gone to the  
country for rest and recreation, the  
misdeeds of her son having almost  
brought on nervous prostration. Well  
was held in \$500 bond in the Jefferson  
Market court, New York on the charge  
against him.

## The Police Court.

Harry Lindsay was arrested after  
being coal from the B. & O. railroad. He  
was given 30 days.

on a man named Weakley, by Officer  
Carroll.

George Miller was arrested by Of-  
ficer Zergel on a warrant charging  
assault and battery on Jacob Essinger.  
He was fined \$3 and costs.

J. O. Kreeger was charged in an af-  
davit by R. L. Vernon, with assault  
and battery. Lieut. Sutton and Officer  
Horton served the warrant.

John Tracey was locked up for being  
drunk by Officer Wise.

Charles Smith was arrested by Of-  
ficers Jacobs and Shaw for being drunk  
on the street.

## A FELINE ROMANCE.

Did This Cat Perpetrate Suicide Be-  
cause of Jealousy?

We have no such affection for stor-  
ies about cats as for those about dogs.  
But a cat story that reaches us from  
Brooklyn is at least as interesting as  
a third or fourth rate dog story and  
is therefore worth printing. The  
Brooklyn cat in question had received  
a large amount of attention and af-  
fection from the members of the fam-  
ily with whom she lived—they might  
better have given both to a dog, but  
it's a Brooklyn story, remember—and  
the creature had come to regard her-  
self as of much importance—an ab-  
surd mistake, of course, but never  
mind that, either.

The other day an amiable child vis-  
ited the cat's family and received  
much petting. This the cat observed  
with a jealous and angry eye, and  
manifested displeasure in several un-  
likely feline ways. Later the host and  
the little guest betook themselves to  
a sort of roof garden with which the  
house is equipped. The cat followed,  
watched for a time the continuance  
of the conduct to which she object-  
ed, and then disappeared. An hour or  
two later she was found dead on the  
ground near the house, and her own-  
ers declared that she committed sui-  
cide out of grief over the neglect to  
which she had been subjected. No-  
body saw the animal jump from the  
roof, so it may have been an accident;  
fall. The chances that a cat would  
fall from a roof are minute, but so are  
the chances that she would commit  
suicide. Just what happened will never  
be known. The problem is not very  
important. If it had been a dog, now,  
the matter would have been worth  
earnest and laborious investigation.—
